

# HEXSIDE — UNIT TOKENS

Print at 100% / actual size on A4 — no scaling. Cut around each printed circle; the ink line is the cut guide.  
Two rosters (Side A, Side B) of five, two ball markers, and 4 Yellow Card markers — 16 tokens.  
Units 0.7in diameter; ball markers 0.4in (\$7); Yellow Card markers a small rectangle (\$11).

Fits one board hex  
(0.49in radius) with a little room to spare

## SIDE A

Pitch green

## SIDE B

Brick red

## BALL

Two markers — the token itself shows possession, not its position

BALL

Carried — sits on top of the carrier's unit token.

LOOSE BALL

Loose — sits alone on a hex, or beside a unit that doesn't have it (e.g. right after a Save).

## YELLOW CARD

A rectangle, not a circle — never confused with a unit or the ball

Tuck against a carded unit's token — stays for the rest of the match. Print more if a match runs unusually card-happy.
